Südsteiermark – Southern Styria

Southern Styria, or more precisely the region between the Koralpe and the Mur, is a place full of contrasts. Deep-rooted traditions meet lifestyle and a cultural landscape characterised by wine is presented, garnished with contemporary architecture. You are surrounded by unspoilt nature with a view of the countryside! The people who live here - close to the border with Slovenia - are innovative without losing sight of tradition.

All of this - landscape, tradition, innovation and the region's inhabitants - makes Southern Styria with all its characteristics the perfect place for the art project "Kulturbotschaften Südsteiermark 2025 - Embassies of Art 2025".

We are looking for

The Kulturbotschaften Südsteiermark project is taking place for the 2nd time this year. As part of the **project week from 3 to 8 November 2025**, we are offering artists exciting opportunities for creative work in the middle of the vineyards.

Are you a student or artist who is interested in photography?

Whether analogue, digital, experimental or interdisciplinary - this is your chance

We are looking for young artists, media artists or students who understand photography not just as a technique, but as an artistic tool - with all its possibilities:

- **Digital and analogue photography**,
- **Unconventional techniques** such as solarisation, chemigram, scanner exposure, cyanotype, collage or mixed media (e.g. video, works on paper and painting, etc.)
- and everything in between that characterises your image finding.
- Individuals of all nationalities and genders who are not older than 35 years can apply.

Supported by the federal government, the federal province and the European Union

About the Logo: Klapotetz (from Slovene klopótec = rattle), windwheel mainly used in the wine growing regions of southern Styria, mostly with 8 sails, a striking mechanism and a wind vane, producing a rhythmic clattering noise, used to chase away birds from the vineyards between July 25 (Jakobi) and November 11 (Martini)

Topic and goal

Theme 2025: "Essence of Southern Styria"

During your residency, you will have the opportunity to realise your artistic ideas and realise your visions. Your work should illuminate the identity of Southern Styria from a contemporary perspective.

The project week will take place from **3 to 8 November 2025**.

We offer
